PROFESSIONAL SUMMARY

Dedicated Computer Science student with internship experience and strong skills in **Programming, Software Testing, Cloud Technologies**, and **Databases**, as well as a **Smart India Hackathon Finalist**, an adaptable fast-learner with proven leadership, collaboration, and communication skills, ready to deliver innovative solutions.

EDUCATION

Karpagam Institute of Technology, Coimbatore	2023 – 2027
B.E. Computer Science and Engineering	CGPA: 8.6
Sri vidhya Matric Hr.Sec school, Sivakasi	2022 – 2023
Higher Secondary	87 %

SKILLS

- **Programming Languages** - C, Python, Java, SQL
- **Automation Testing** - Selenium WebDriver, Pytest, Page Object Model, Test Case Design, Defect Reporting
- **Networking & Security** - IP Routing, Firewalls, Network Protocols & Architecture
- **Tools & Operating Systems** - Git, GitHub, Canva, VS Code, Linux, Cisco Packet Tracer
- **Cloud Computing** - AWS (EC2, Lambda, API Gateway, AWS CLI), Microsoft Azure
- **Frontend & Web** - HTML, Frameworks, UI/UX Design
- **Backend & Databases** - MySQL, DBMS, Firebase
- **Soft Skills** - NSS Camp Member, Team Leadership, Time Management, Adaptability

CERTIFICATIONS

- **NPTEL** – Data Structures and Algorithms using Java, Software Testing, Food Science & Technology
- **Azure** – Microsoft Azure Fundamentals (AZ-900)
- **AWS** – AWS Foundations
- **Deloitte** – Data Analytics Job Simulation
- **CISCO** – Networking Essentials, Basics, Addressing & Troubleshooting, Devices & Initial Configuration

PROJECTS

Tichi Test Automation Framework

- Developed a Selenium automation framework for the **Login and Signup modules** using Python and the Page Object Model (POM).
- Automated 17 functional test cases covering **validation, authentication**, and UI scenarios.
- Generated HTML test reports and documented test cases and **defect reports**.
- **Technologies:** Python, Selenium, Pytest

AI-Based Crop Recommendation System (SIH)

- Developed an **AI-powered crop recommendation system** analyzes **soil nutrients, weather conditions, temperature, humidity, rainfall, and environmental data**.
- Implemented a **user-friendly interface** for farmers to easily access **crop recommendations, agricultural insights, and farming guidance** in real time.
- **Technologies:** Python, Machine Learning, HTML, CSS, Firebase, Weather API

CIVIC EASE – Smart Civic Issue Reporting & Resolution

- Developed a platform for citizens to report civic issues using **image, text, and voice**. Added **real-time complaint tracking, status updates, and notifications**.
- Designed an **intuitive and responsive interface** to simplify **complaint registration, location tracking, the issues**.
- **Technologies:** Python, HTML, CSS, JavaScript, MySQL, Firebase, REST API, Google Maps API

ACHIEVEMENTS

- **Finalist – Smart India Hackathon 2025, IIT Dhanbad**
- **Taiwan Hackathon – Certificate of Participation in 21st DSP Creative Design Competition**
- **Workshop on Web Development**

INTERNSHIP

New Technology Institutions Aug 2024

- Developed **Artificial Intelligence based applications** and gained practical experience in **AI technologies**.

Lamda Tech Softics Jun 2025

- Designed **user-friendly UI/UX interfaces** for web and mobile applications.
